

Cavallino

Since 1969

“Innovazione e tradizione, qualità e responsabilità. Sono questi i valori che i nostri padri ci hanno tramandato, insegnandoci il mestiere. Valori che a nostra volta trasmettiamo ai nostri figli.

La passione per la concia, la consapevolezza di far parte di un ecosistema delicato e la convinzione che il connubio tra innovazione e tradizione sia la chiave per produrre prodotti di qualità: ecco i capisaldi del lavoro quotidiano di Conceria Tris.”

Elena Bortoli

“Innovation and tradition, quality and responsibility. These are the values that our fathers handed down to us, teaching us the craft of tanning. Values that, in turn, we pass on to our children.

The passion for tanning, the awareness of being part of a delicate ecosystem and the belief that the combination of innovation and tradition is the key to producing quality products: here are the pillars of the daily work of Conceria Tris.”

Elena Bortoli

La vostra eredità

Fondata nel 1969, Conceria Tris si è inizialmente specializzata nelle pelli equine, diventando in pochi anni la conceria di riferimento in Europa per le pelli di cavallo. Successivamente Conceria Tris ha allargato l'offerta includendo le pelli bovine a pelo, al fine di estendere la gamma degli articoli ai colorati e serigrafati, molto richiesti in tutto il mondo. L'ampliamento dell'offerta in pochi anni ha permesso ai due soci fondatori, Palmerino Bortoli e Silvano Peretti, di portare il numero dei dipendenti da circa venti a oltre sessanta. Oggi Conceria Tris conta 20.000mq di fabbricati e 65 dipendenti.

Servizio, disponibilità ed affidabilità sono le caratteristiche che i clienti riconoscono ed apprezzano maggiormente in Conceria Tris.

Our heritage

Founded in 1969, Conceria Tris initially specialized in equine skins, becoming in a few years the reference tannery in Europe for horse skins.

Subsequently, Conceria Tris expanded its offer to include cowhides with hair, in order to extend the range of items to colored and silk-screened articles, which are in great demand all over the world. In a few years, the expansion of the offer allowed the two founding partners, Palmerino Bortoli and Silvano Peretti, to increase the number of employees from about twenty to over sixty.

Today, Conceria Tris has 20,000 square meters of buildings and 65 employees. Service, availability and reliability are the characteristics that customers recognize and appreciate most in Conceria Tris.
